

# Garage doors

Here are options if you want to replace your garage door. The flat doors, as several owners have, are an option. If you want something more interesting, the board approved the use of either raised panel or recessed panel doors. Rectangular windows at the top of the door are also approved. Doors may match the color of your house. If they contrast, the color must be approved by the board.

Here are examples of approved doors:

The doors pictured below are not approved:
